Edensaw Woods, LTD is a trustworthy specialty wood supplier that has taken great pride in offering the best in service and quality at a fair price for nearly 30 years. For our clients we stock only the highest quality lumber, plywood, veneer, hardwood flooring and tools. Through the years we have gained a multifaceted staff of talented experts to assist our clients with the huge variety of projects that they become involved in. We cater to a diverse client base from the weekend craftsmen to commercial boat builders and industrial millwork houses.

Edensaw, measures their success in terms of satisfied customers rather than board footage. Custom wood products are Edensaw's forte. We have the capability to supply custom veneered panels for yachts, luxury homes and condo's. With our in-house millwork shop we can manufacture unique sidings and molding for homes, offices, and hotels of all kinds. We offer this list as an introduction to the type of materials we can supply to you and your company.

Edensaw delivery trucks serve the entire Puget Sound region daily. We also ship nation and worldwide. For more information on products and to schedule your delivery contact your Edensaw Woods, Ltd. sales representative today!

Edensaw is a proud distributor of many
Forest Stewardship Council Certified products.

FSC CERT #SW-COC-051

Edensaw is NW Distributor of Richlite surface materials

Richlite is a family affair that has operated out of the same Tacoma, Washington manufacturing facility since 1943.

Architects and designers discovered the material in the late 1990s and began specifying it for high-end residential and commercial countertops and reception areas. Beyond countertops, Richlite is a popular surface material for indoor wall cladding/wainscot, work surfaces, wall caps, stair treads, artistic features and related architectural applications.

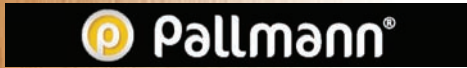

We are a Rockler Woodworking Independent Reseller
